 HCL71 **Colaris Concession** (Con Colaris, Colaris) 06/38 [LM WO Gu Gz]
 07°00'/38°30' 1728/1850 m
 Average rainfall 1065 mm per year recorded in 1932-39,42-50.
 Up to the Italian occupation the Belgian concessionaire Colaris had a plantation in the south. In the turbulent period before the arrival of the Italians in the south, Colaris and his 'nearly neighbour' Bleys were apprehended and executed, see under Yirga Alem.
 [K Gulbransen 1957]

 JD... Cubanoar 09/40? [x]
 The party of Powell-Cotton hunted there in December 1899.
 "-- the steep banks of the Cubanoar, a /left/ tributary of the Hawash, a narrow, rather swift stream, with a bad ford much obstructed with tree-trunks." They walked along the Cubanoar in a stretch where it was a wide, shallow stream flowing over a stony bed. They saw lesser kudu and waterbuck, and tracks of elephant and bushbuck.
 [Powell-Cotton 1902 p 60, 62]
